Food Wine Culture Tours

The principals of Food Wine Culture Tours have promoted leisure travel since 1995. Over 2,000 travelers have enjoyed destinations in the European Alps of France, Italy, Switzerland, Austria and Germany; Italian cultural cities and resorts; the American and Canadian Rocky Mountains; Australia - New Zealand and Napa - Sonoma. Our showcase event, "An Evening on the Riviera," has benefited the local community since 1995, raising funds through its unique combination of cuisine, wine, music and art.

Our enjoyment of food and wine and appreciation for other countries and cultures culminated in the incorporation of Food Wine Culture Tours, Inc. in 2002 to focus on travel offerings focused on the world's wine regions. We want you to enjoy these inviting destinations as much as we do.

As a part of our tour or small group trip planning, we arrange for hotels, ground transportation, multilingual guides, visits to vineyards, olive oil mills, museums, galleries and estates of all sizes and importance. We include performing arts events, ceramic, glass, and textile manufacturies based on our extensive in-country experiences and contacts. We partner with travel agencies to obtain the best possible air connections and prices.

We belong to the Outside Sales Support Network (OSSN) Association and are IATAN certified. We are insured and promote travel insurance for our travelers.

On each web page of this site you will find a print friendly button. You can use it to download a copy of the tour itinerary for the country you are viewing.

Free free to contact us with any questions or comments you may have regarding our tours or unique event planning services. Our telephone and email are listed above.
